[VJB & S.R.P. signed their names on the two by four under the plywood on the floor.]

we arranged this construction project on the phone on 7/22/85 at about 7 P.M.
 JVB arrives at 10 AM & we worked for 8 hours, excluding the hour break we took at mid-afternoon, when we went to the Cliffrick diner for chili burgers & French fries.
 We erected the "grand lignes" of Habitat — & I moved in the two filing cabinets, the marble top desk & the Elkdale cabinet — "Habitat" is a dream come true.
